

New Feature: Automatic PDF printing

14 December 2009

The *World Socialist Web Site* has just launched a new way of printing and distributing articles. Our articles now have a 'leaflet' button on the top tool list; clicking this button will create a PDF leaflet out of any page for easy duplication and distribution.

We encourage our readers and supporters to distribute our leaflets widely among friends and co-workers, at strikes and demonstrations. If you are interested in promoting for a specific Socialist Equality Party event, feel free to contact us to request leaflets with custom meeting announcements. As with any new feature, there will always be room for improvement, so we ask our readers to report any problems they encounter.

If you do not see the new link (flashing orange on this page), please try refreshing your browser.
