

World Socialist Web Site announces launch of new perspectives journal

13 January 2010

The *World Socialist Web Site* and Mehring Books are launching today an important new publication—*WSWS Perspectives*. The monthly journal contains all the perspectives articles published on the WSW.

WSWS perspectives articles analyze and comment upon the most important political events, economic developments, and cultural questions facing the international working class. Through these commentaries, the WSW elaborates a socialist response to the crisis of world capitalism.

The journal will be an invaluable resource for both new and longtime readers of the WSW. We also encourage our readers to purchase copies for family members, friends and co-workers as a way to introduce them to the analysis of the *World Socialist Web Site*.

WSWS Perspectives includes both a date-ordered table of contents and a subject index, to allow readers to quickly find material on particular themes or in response to particular events. Over the course of the coming year, Mehring Books will be issuing back copies of *WSWS Perspectives* going back to the redesign of the WSW in October 2008.
