

Video: Detroit residents speak out on water shutoffs

Tim Rivers
9 July 2014

The city of Detroit is aggressively implementing its plan to shut off residential water service at a rate of about 3,000 households per week, in coordination with the city's bankruptcy. Up to 150,000 households may be affected. *World Socialist Web Site* reporters spoke to residents as they waited in line at water payment centers, trying to get running water to their homes turned back on.
