

World Socialist Web Site online interview commemorates 75 years since the assassination of Leon Trotsky

5 October 2015

On October 3, the *World Socialist Web Site* held the first in a two-part interview series with David North, the chairman of the WSWs International Editorial Board, on the subject, “Why and How the GPU Murdered Leon Trotsky.”

A large audience listened to the live broadcast and submitted comments and questions from dozens of countries all over the world. The recording of the event is now posted online and can be viewed below.

The second part of the interview series will take place on Saturday, October 10 at 1:00 PM Eastern Daylight Time (time conversions here).

Those who had already registered for the first interview will not need to re-register to participate in the second part. We urge those who have not yet registered to sign up today to participate.
