Socialist Starter Bundle

Designed for those who are new to Marxism and are looking for a set of writings that will introduce them to the basic concepts and ideas of socialism. It is also a good choice for those who want to add classic works of Marxism to their library. Titles included: *The Breakdown of Capitalism and the Fight for Socialism in the United States*, Program of the Socialist Equality Party; *The Communist Manifesto* by Karl Marx and Frederick Engels; *Socialism: Utopian and Scientific* by Frederick Engels; *In Defense of the October Revolution* by Leon Trotsky; *Imperialism: The Highest Stage of Capitalism* by Vladimir Lenin; *The Transitional Program* by Leon Trotsky

Available for \$17.50

Introduction to Trotskyism Bundle

Contains *The Revolution Betrayed*, Trotsky's unsurpassed analysis of Stalinism, and *In Defense of Leon Trotsky*, David North's defense of Trotsky against contemporary falsifiers. Both of these works are indispensable reading for those wishing to develop an understanding of the significance of the life and work of Trotsky, the co-leader of the Russian Revolution and the indefatigable opponent of Stalin.

Available now for \$19.95

Marxist Economics Bundle

Essential writings by Karl Marx on economics, as well as an essay by noted Soviet economist E.A. Preobrazhensky on the problem of socialist construction in the USSR. Titles included are *Capital, Vol. I, Ch. 1*; *Grundrisse: Introduction to the Critique of Political Economy* (unabridged); *Forms of Value*; and *From NEP to Socialism*.

Available now for \$11.70

The Frankfurt School, Postmodernism and the Politics of the Pseudo-Left (David North)

The polemical essays in this volume examine the complex interaction between history, philosophy and politics. The author defends historical materialism against contemporary anti-Marxist philosophical tendencies related to the Frankfurt School and postmodernism.

Available in hardcover, paperback, Kindle and ePub formats—all at discounted prices.

Socialism, Utopian and Scientific (Frederick Engels)

This small book compactly outlines the economic, historical and philosophical teachings of Marxism. It is a concise and penetrating explanation of the origins of scientific socialism and how Marxist thought is distinguished from the concepts of earlier socialists.

Available now for only \$4.95

The Essential Marx

"This book compactly sets forth the fundamentals of Marx's economic teaching in Marx's own words. After all, no one has yet been able to expound the labor theory of value better than Marx himself"—from the Introduction by Leon Trotsky.

Available now for \$8.06

State and Revolution (V.I. Lenin)

One of Lenin's most important works, written in the summer of 1917, on the eve of the October Revolution. Essential for understanding the Marxist attitude toward the state.

Available for \$4.95
