

US public meeting series: Why Study the Russian Revolution?

24 October 2017

Across the world, millions of people are asking themselves, “What is socialism?” as they search for solutions to rising poverty, social inequality, the threat of dictatorship and the expansion of the US’ neverending wars. Some, including Senator Bernie Sanders, claim socialism is compatible with support for Hillary Clinton and the Democratic Party. But to learn what socialism really is, one must examine the greatest event of the 20th century: the Russian Revolution of 1917.

What was the Russian Revolution? Why did it become the dominant event of the 20th century, forever altering history by giving rise to the most powerful and progressive social movements of the last century? What are its lessons for today?

David North, chairman of the International Editorial Board of the *World Socialist Web Site*, will review the causes, consequences and enduring significance of the 1917 Russian Revolution.

University of California, Berkeley

Wednesday, October 25, 6:00 pm
