

Chinese translation of WSWS perspective on Chinese Communist Party centenary

20 July 2021

The *World Socialist Web Site* is publishing today the Chinese translation (“??????100??”) of the perspective posted on July 1 entitled “100 years since the founding of the Chinese Communist Party.” The perspective counters the official campaign of lies and falsifications designed to boost the public standing of the CCP and that of President Xi Jinping.

The translation makes the analysis of the International Committee of the Fourth International—the world Trotskyist movement—of the history of betrayals of Stalinism and the CCP accessible, in outline, to a broad audience of Chinese workers and youth. For a new generation seeking to fight for genuine socialism and Marxism, a study of the strategic experiences of the working class in China and internationally is absolutely essential.

We encourage workers and young people to contact us.
