

“Vaccines alone can't stop Delta.”

The science behind why ending the pandemic requires school and workplace closures

Our reporter
30 September 2021

In this ten minute video clip, Dr. Malgorzata Gasperowicz explains why stopping a virus as contagious as the Delta variant requires not only vaccines and masks, but also public health measures like the temporary closure of schools and non-essential workplaces.

Dr. Gasperowicz will be a featured panelist at the upcoming webinar *How to end the pandemic: the case for eradication*, on October 24.
