The *World Socialist Web Site* recently interviewed Elizabeth, a nurse in California, on her experiences and those of healthcare workers during the COVID-19 pandemic. This interview is testimony provided to the Global Workers’ Inquest into the COVID-19 Pandemic, which aims to expose the lies and misinformation used to justify the official response to the pandemic that has led to the needless deaths of millions worldwide.

The WSWs is gathering testimony from workers in every industry and throughout the world on your experiences during the pandemic. If you wish to learn more and participate, read the statement below announcing the Global Workers’ Inquest into the COVID-19 Pandemic and fill out the form at the end of the statement.
