

“This is a warfare of the upper classes against the lower classes”

Health care expert Gregory Travis speaks on the impacts of COVID-19 on children, misinformation and the cover-up of data

Evan Blake
11 April 2022

In this sweeping interview, health care expert and data analyst Gregory Travis exposes the lies and misinformation that have been spread about COVID-19, in particular its impacts on children. He also documents the steady erosion of data tracking over the past year, which qualitatively deepened during the Omicron surge this winter. The video is broken up into nine distinct chapters focused on different aspects of these themes.
