

Oppose the US imperialist war on Iran!

David North
28 February 2026

The attack on Iran ordered by Donald Trump and his war-crazed cabal is a massive political crime, illegal under international law and in direct violation of the US Constitution. It has been launched, in collaboration with the genocidal Israeli regime, without even the figment of authorization from Congress, against a country which has not attacked the United States and poses no threat to it.

Within the first hours of this criminal attack, at least 24 students were killed in an air strike on a girls' school in Minab in southern Iran. How many thousands, tens of thousands and hundreds of thousands will be killed in the days ahead?

Only four days ago, Trump appeared before Congress and the American people to deliver his State of the Union address. Even though he had obviously decided to launch the war, he concealed his decision and barely mentioned Iran in the course of his two-hour rant.

Now, Trump, baseball cap on his head, announced his decision in the dead of night, while most Americans were sleeping. He has set the United States and the entire world on a disastrous course. This war will not solve the internal social crisis of American society, nor will it reverse the protracted deterioration in the global position of US capitalism.

All these contradictions, domestic and international, will be intensified. The war itself will inevitably escalate and engulf the entire planet.

No amount of media propaganda can disguise the fact that the attack on Iran is precisely what was described at the Nuremberg trials of Nazi leaders back in 1945-46 as a "crime against peace."

In the future, historians will compare Trump's February 28, 2026 attack on Iran to Hitler's September 1, 1939 invasion of Poland. They are crimes of equal magnitude.

The Socialist Equality Party demands that the bloody assault on Iran be stopped immediately.

The working class and youth and all progressive and decent people must oppose this war, which has been launched in the interests of the financial-corporate oligarchy.

The same administration that has deployed ICE agents to terrorize American cities and neighborhoods, that is violating the Bill of Rights, is the same government that has launched this criminal war.

Call meetings in your factories, workplaces, schools and neighborhoods demanding the immediate end of this war.

The world must know that the American people oppose this war and want no part of it.

Take a stand. Make your voices heard.
